LEGEND

EXISTING (67% COMPLETED) **FUNDED (2% FUNDED)**

Existing sections comprise approximately 168 miles of the Wasatch Loop. These existing sections are in use today.

Funded sections comprise 5 miles of the Wasatch Loop. Some of these sections are under construction today.

PLANNED (17% PLANNED) **CONCEPT (14% CONCEPT)**

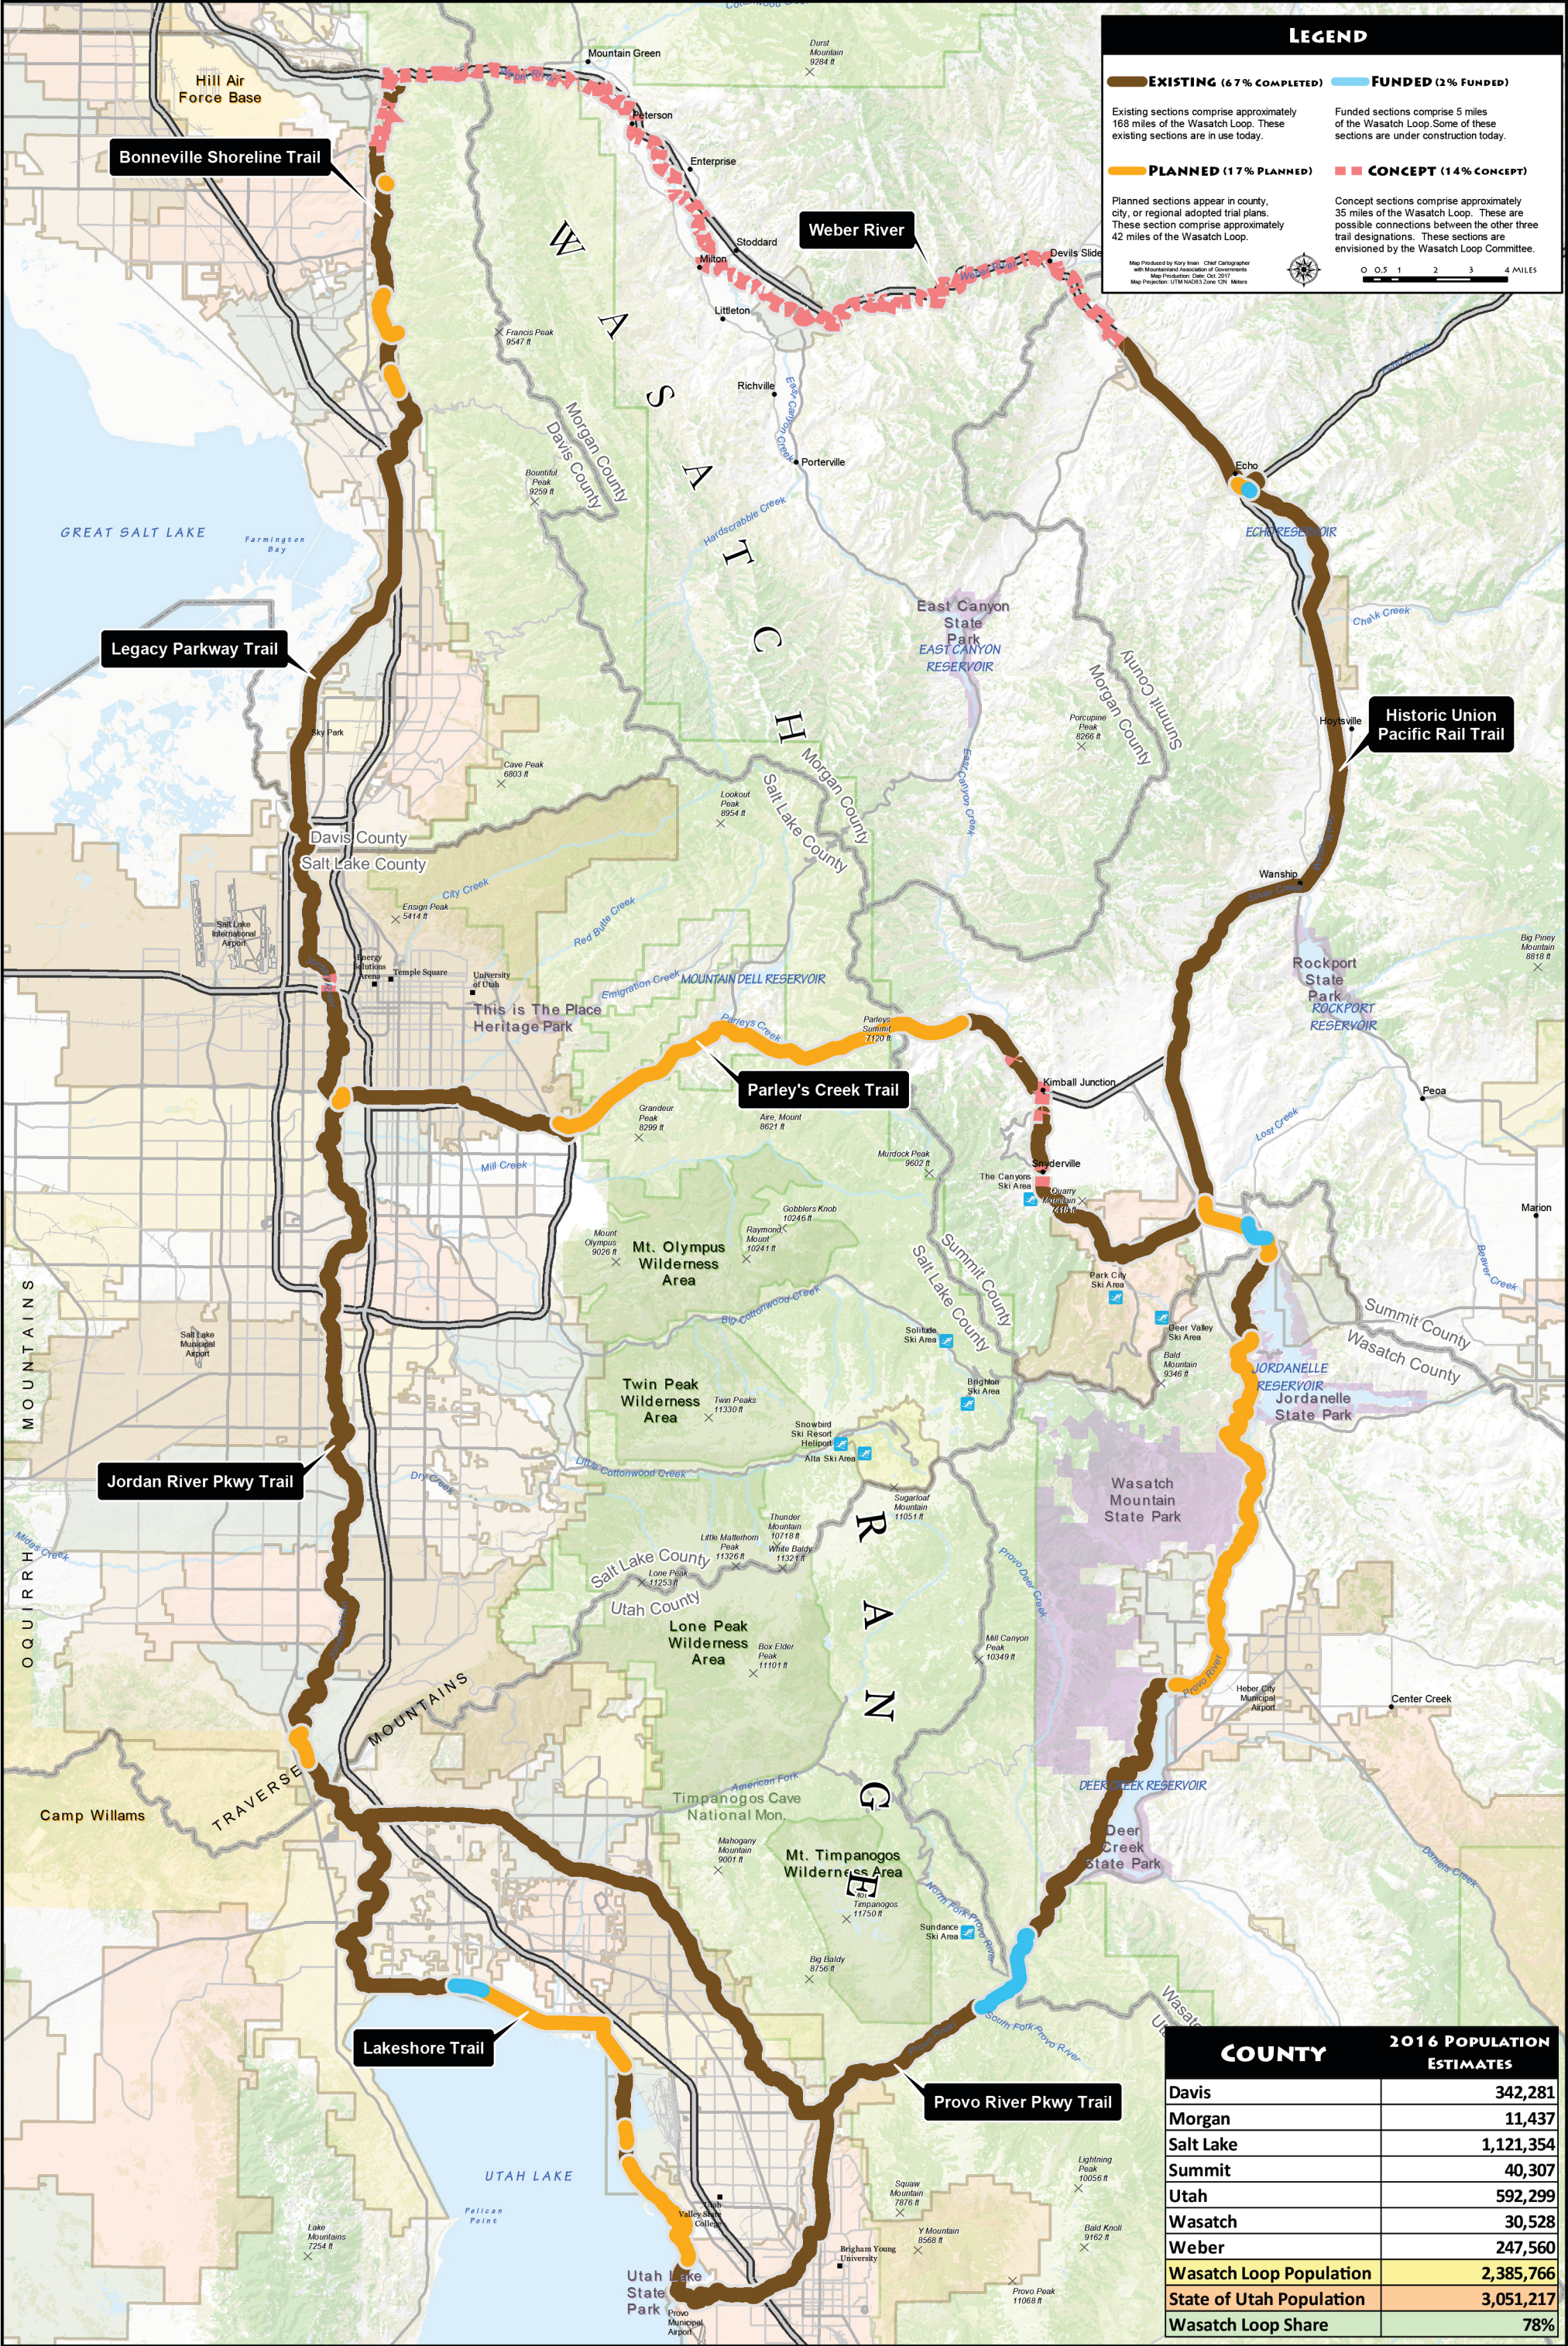

Planned sections appear in county, city, or regional adopted trail plans. These sections comprise approximately 42 miles of the Wasatch Loop.

Concept sections comprise approximately 35 miles of the Wasatch Loop. These are possible connections between the other three trail designations. These sections are envisioned by the Wasatch Loop Committee.

"INFINITE POSSIBILITIES"

THE WASATCH LOOP

"A 250 MILE UTAH NON-MOTORIZED TRAIL"

LIFE
UTAH
ELEVATED

The Wasatch Loop Trail Coalition envisions a 250-mile non-motorized trail network connecting Davis, Morgan, Salt Lake, Summit, Utah, Wasatch, and Weber Counties (and everything in between).

An excursion on the loop would take a visitor along the Historic Lincoln Highway or Pony Express Trail. Water attractions are abundant, including the Provo, Jordan and Weber Rivers; Echo, Jordanelle and Deer Creek Reservoirs and of course expansive views of the Great Salt Lake and Bear River Migratory Bird Refuge.

The Summit County Historic Union Pacific Rail Trail provides the fascinating history of the mining industry and front door entry into the bustling resort town of Park City.

The Bonneville Shoreline Trail at 5,200 ft in elevation gives a peek into the geologic history of the Salt Lake Valley and provides breathtaking views and access to the largest city centers along the Wasatch Front.

TRANSPORTATION * RECREATION * DESTINATION

The Wasatch Loop will attract all types non-motorized trail use, from the ultra marathoner to the local family out for a casual stroll. Both paved and natural surfaces connect the Wasatch Front to the rural valleys and towns of the Wasatch Back.

Utah County Convention & Visitor Bureau

An impressive 78% of the state population (3 million residents), will have proximate access to the Wasatch Loop which in turn connects to additional miles of trails within surrounding Uinta-Wasatch-Cache National Forest and State Parks.

THE WASATCH LOOP TRAILS COALITION

is a voluntary effort between organizations advocating and planning for public trails. These entities, together and independently, created the first 168 miles of the Wasatch Loop and have formed the Coalition to collaboratively construct the remaining 82 miles. Participants include local, state and federal agencies along with Mountain Trails Foundation, Mountainland AOG, Utah State Parks and Recreation, Utah Bicycle Coalition, Weber Pathways, PRATT, Trust for Public Lands and others who champion non-motorized trails in Utah.
